

To enhance our already available education, AIMS Medical Group has developed a new business partnership with Ontex through, The Continence Institute (TCI).

The Continence Institute (TCI) is Ontex's ACN endorsed provider of education & training programs directed at health professionals on all aspects of continence assessment, management and treatment. Each module has been allocated CPD hour(s).

The TCI modules are researched and developed by a specialist team of qualified Continence Nurse Advisors. The modules are regularly reviewed by their specialist team to ensure all information reflects current evidence-based best practice.

TCI modules are conducted face-to-face by their qualified Continence Nurse Advisors and Clinicians who hold a Certificate IV in workplace Training & Assessment.

For further information on receiving any of the modules, please contact.....
